Learn More About  
the App Economy

**App Economy in Your District**

**StepAway** is a mobile application to help those with addiction manage their day-to-day lives and make better decisions about their daily habits to help prevent relapses. The app is primarily centered around those who are unable to seek addiction treatment services but are looking to make a change in their drinking habits. The app helps track daily progress while also giving users insight into their triggers, providing useful information on how to make different and better decisions related to their alcohol use in a safe and private space.
