the App Economy

**App Economy in Your District**

Based in Mobile, Alabama, **Next Level Studio** is a software development and marketing studio with more than 50 years of experience between their two employees.

Their services range from custom web and software development to credit card processing and digital marketing solutions. Because their headquarters is in Mobile, Alabama, Next Level Studio is heavily involved in the maritime and logistics industries including products that provide their customers with digital cargo and freight shipping manifests and tracking services and cloud-hosted dashboards to track things like banking and customer information.
