the App Economy

**App Economy in Your District**

**MacGuyver Media** is a custom web and application development company that creates web-based software solutions for businesses. Based in Glenolden, MacGuyver has only five employees and was founded in 2015. Through website, app, and e-commerce development, website maintenance and assessments, and the ability to integrate into any database or API source, MacGuyver provides their clients with solutions and services to help their businesses to succeed. Their clients range from companies in the financial sector to alcohol distribution and dozens more.
